Without further ado, here are the major tools you'll be using in your Photoshop editing career: File Types  
When working with a digital image, you'll need to have multiple file formats to view, process, create, and manipulate the image. Format The two primary file types in use are JPG (Joint Photographic Experts Group) and TIFF (Tagged Image File Format). JPG files are generally a smaller filesize and can be used for web and print, while TIFF files are generally larger and are better for large files. JPG images are typically used for viewing and printing, while TIFF is used for large print projects. As for storage of your image file, there are various ways to deal with this. The most common is to use a folder of your choice that has your proper file name to accompany your image. Another file-storage method is to use File Explorer in Windows, and the "Open in Finder" feature in Mac OS X, which will open a file in your Finder. There are other file-types you may need to consider depending on your style of work and the files you may have to work with. These include GIF, PNG, PSD, EPS, TGA, and PDF. If you work with a large amount of images on a daily basis, using an image-manager program like Lightroom or Aperture may prove useful in organizing your files. Fiction & Poetry In Between is the only collection of short stories by acclaimed author Gary Soto to come from SeaTac, Washington. While it is considered that Soto is a master storyteller, he writes with purpose and intelligent clarity. In Between draws on the needs, resources, fears and aspirations of Soto's characters, while also looking at the world around them. The collection spans four generations of a blended family with the fourth generation now grown and living independently. At that point, the family comes to terms with the traditional Mexican values of the past and questions what kind of legacy those values will leave on their legacy and descendants. Through the years, Soto looks at the effects of the heartache caused by the past, and the love, heartache and belief that propels a family through dark times. Soto blends a realistic voice that reflects the struggles of the daily life of a young married couple with the ambition to provide for their future. Readers will witness the carefully plotted twists of fate as they rip the fabric of the family, until in the end, there is a sense of calm, acceptance and pride in the life of a Filipino family. The beauty of In Between is that the stories are framed with the knowledge of the past, but the consequences are for the future. The reader can't help but feel the love and heartache within these stories as they move through the lives of these characters, past and present. In Between - A Collection of Short Stories by Gary Soto Soto's skill as a storyteller is reflected in his effortless ability to give readers a glimpse into the past of characters, which means that we understand the past more in the context of what the characters' future may hold. The reality of the characters' past, and their feelings of humiliation and expectations for the future will be all the more heartbreaking because of its boundless parallels to the Filipino reader. Gary Soto is recognized as a master storyteller; the ability to write a cohesive piece that is both literate and rich in emotion and meaning is no mean feat. This collection of short stories shows Soto's storytelling prowess. Soto has a sure hand at creating a story that is both moving and thought provoking. InBetween: A Collection of Short Stories by Gary Soto Gary Soto is a well-known author and his reputation, beyond the borders of Filipino communities, is undeniable. This book of

NEWSLETTER Faulkner Anecdotes :: A Bunch Of Forgotten Stories From The Letters Of William Faulkner  
Email Address: First Name: What's your email address? Advertisement Advertisement  
Whichever of his novels you're reading, you can be sure that William Faulkner was a writer who knew how to have a good time. Here are a few anecdotes from the letters of the great man. I've known several people in my time, and by and large the saying is true: "A woman will often give herself away as much by her speech as she will by her actions." But here's a woman who seems to have had no such inhibitions. She addresses herself as "Miss Mildred" in one letter to her sister, while in another letter to her lover she addresses herself as "Mistress Eunice." In no less than five letters, she's concerned with the following: I don't know

what was in my mind to say [in the first letter], but I suppose that in my mind I was seeing two of the most important events of my life: my first kiss and my first affair. It seems to me that I should have said, "I was seeing the first evidence I had seen that you, the one person I have loved all my life, are to me a stranger, unknown, a person unknown, a person all my life, unknown."... I should have said, "I am a stranger to you, unknown, as I was on the day we first met, a stranger to you now, as you must be to me."... [In the third letter] I was very calm and very sad. I felt that this day had crushed all possibilities of the future. I was sad.... My thoughts went to Eunice. I could see no hope. And I felt a pity for her. I could only think of her as some wall against me, I could only think of her as I had remembered her the night before, as a dark figure I could see out of the window.... But now she was dead. She was as dead as if she had never been. I didn't understand. I didn't understand, and I was angry with myself and angry with you and angry with the world that had given you to me and that had given me to you, and angry with myself. I raged at you as well as against
