There's an adjuster for skin color and hair color. You can change brightness, contrast and color of any photo. Photo Makeup Editor Shortcuts: Ctrl+T - Photo Makeup Editor Preferences. Remove wrinkles or adjust color of the skin. Ctrl+Shift+T - Shortcuts for body, face and hair correction. Ctrl+Alt+Shift+T - Shortcuts for brush tools. Ctrl+A - Load selected photo. Ctrl+O - Load original photo. Ctrl+C - Save edited photo. Ctrl+X - Save current photo as a copy. Ctrl+I - Load the photo as a new one. Ctrl+S - Close the program. Photo Makeup Editor Comments: This program is good for those who prefer more than just basic usage of a computer. It's pretty powerful, although we have found one issue regarding hotkeys. While it's perfectly possible to change the keyboard shortcuts, most of the available options don't bring any real benefit. Also, the fact that Photo Makeup Editor needs a higher amount of RAM and disk space might turn some people off, as it requires quite a lot of resources to run properly. Photo Makeup Editor Download: Photo Makeup Editor is one of the most simple photo makeup application software that's designed to help you improve the quality of the photos in your gallery. Though it doesn't have a feature-rich interface, Photo Makeup Editor can definitely work as a cool tool for enhancing the photos. The program offers a number of editors in the form of lipstick, eyeliner, eye shadow, and powder. Plus, you can remove wrinkles and highlight the beauty parts of the photos. There is a brush for
