
Metro 2033 Patch 1.2 Crack

August 26, 2014 - Last night I played the game for about an hour, and then went to bed. The next day, I see that a 1.2 GB update has been released for Metro Redux... and it's installed on my computer. I didn't download Metro Redux, so I didn't know there was an update. I know that this update does not affect my OS. This update affects my gameplay. And this update changes some game sounds. It's pretty scary. I think the developers should have told me about it. They should have told me they made an update. I did not know about it. I'm not going to get updates if they don't tell me.
